## Discussion Round Tables Call for Abstracts

**Abstract submission deadline is Friday, October 4, 2024**

Building upon the innovative culture of STLE a creative session format to deal with academic topics is organized by the Annual Meeting Program Committee. This ideation event is open to all technical sessions.

Please apply for hosting a discussion table with your topic directly to [Hannes.grillenberger@schaeffler.com](mailto:Hannes.grillenberger@schaeffler.com) or submit an abstract in the abstract submission site.

The ideation event will be held in the format of discussion round tables. This format enables both an open discussion with many participants and an easy recap and documentation. For every table a host proposes a topic for his discussion round table and the participants will discuss and share their opinions in this. By using writable tablecloth, a creative and open atmosphere is generated to stimulate and communicate ideas. The big benefit for the host is that he/she may propose a topic of his interest and receive the opinions and views of all other participants. The Ideation Session typically takes 60-90 minutes but is open ended.

Further information on the ideation discussion round table event may be found in the archived Annual Meeting events in the extended abstracts section.

Please apply to host a table and have your topic discussed and shared and contact [Hannes.grillenberger@schaeffler.com](mailto:Hannes.grillenberger@schaeffler.com) directly or submit an abstract in the abstract submission site.

Submit your abstracts at <https://stle2025.abstractcentral.com/>
